

## Your 10 Commandments of Internet Safety

1. Use first name but no other information.
2. Don't talk about personal things.
3. Don't click on pop-ups.
4. Don't put real birthday.
5. Pictures must be appropriate (you would be willing to show them to an old lady at church).
6. Always use safe search settings.
7. If the web browser says the page is unsafe-don't trust it.
8. Only sign up for reputable sites with parental consent.
9. Know what address you are typing.....and type it correctly.
10. Don't share your friend's information or pictures without getting their permission.
